

Oily Oil And Gas Fields Service and Supplies Co.

www.oilysafety.com

1. Executive Summary

Oily Oil And Gas Fields Service and supplies Co. is an integrated services and solutions provider delivering end-to-end support across critical infrastructure, energy, and commercial sectors. We specialize in oil and gas field services,

security, catering, construction, logistics, and specialized manpower supply. Driven by operational excellence, safety, and reliability, we partner with public and private organizations to execute complex projects and sustain seamless supply chain and support operations in challenging environments.

2. Mission & Vision

- **Mission:** To provide safe, efficient, and cost-effective services and supplies across the energy, construction, and support service industries while prioritizing human safety, compliance, and quality.
- **Vision:** To become a leading integrated field service and infrastructure solutions provider across the region.

3. Core Services & Capability Matrix

3.1 Oil & Gas Field Services

Comprehensive support for upstream, midstream, and downstream operations.

- Wellhead maintenance and field support services
- Pipeline installation, inspection, and maintenance
- Site preparation, civil works, and environmental cleanup
- Equipment testing and routine maintenance

3.2 Security Services

Asset protection and physical security solutions tailored for high-risk and remote operations.

- Site security personnel and asset guarding
- Risk assessment, access control, and perimeter monitoring
- Integrated security systems (CCTV, intrusion detection, control rooms)
- Executive protection and secure transport logistics

3.3 Catering & Camp Services

Nutritious and hygienic food and facility management for remote workforces.

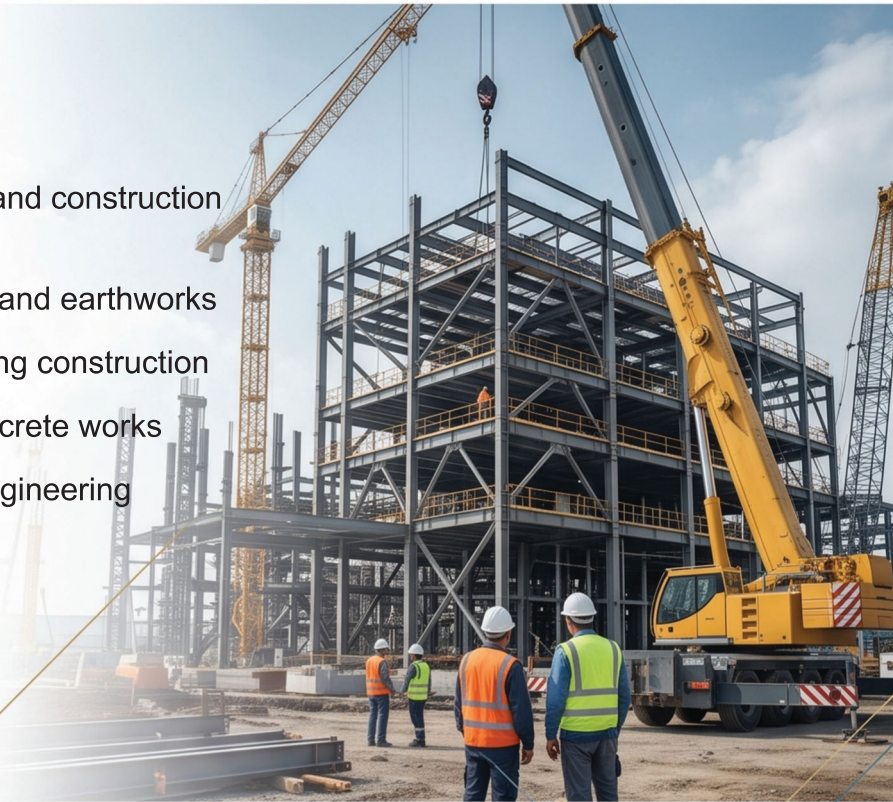

- Industrial, offshore, and remote camp catering
- Customized meal plans adhering to international dietary and safety standards
- Full life-support camp operations and housekeeping services

3.4 Construction & Contracting

End-to-end engineering, procurement, and construction (EPC) solutions.

- Civil engineering, infrastructure, and earthworks
- Commercial and industrial building construction
- Structural steel erection and concrete works
- Project management and site engineering

3.5 Logistics & Freight Management

Reliable supply chain and transport networks to keep projects moving.

- Heavy equipment haulage and fleet management
- Warehousing, inventory control, and distribution
- Customs clearance support and material handling

4. Core Supplies & Solutions

Division	Supply Capabilities
Oil & Gas Field Supplies	Valves, fittings, piping materials, drilling chemicals, pumps, gaskets, and specialized field instrumentation.
Safety & Firefighting Equipment	Personal Protective Equipment (PPE), fire suppression systems, alarms, extinguishers, gas detectors, and emergency rescue gear.
Energy Supply Solutions	Industrial power generation (generators, transformers), renewable/solar backup setups, fuel distribution, and electrical grid components.

5. Manpower & Workforce Solutions

We supply highly qualified, vetted, and skilled personnel across all technical and operational disciplines:

- **Technical & Engineering:**

Petroleum engineers, civil contractors, safety officers, certified welders, and technicians.

- **Operational & Support:**

Security personnel, culinary staff, logistics drivers, rig crews, and general field labor.

- **Management:**

Site supervisors, project managers, and HSE managers.

6. Quality, Health, Safety, & Environment (QHSE)

At Oily Oil And Gas Fields Service and supplies Co., safety is non-negotiable. We maintain strict compliance with local laws and international standards across all operational arms:

Our Commitment: Zero incidents, strict environmental protection, and absolute adherence to quality management systems across every job site.

- Comprehensive pre-employment screening and continuous safety training
- Routine risk assessments (HAZOP/JSA) prior to task execution
- Full regulatory compliance and certified safety protocols
